CAREER SUMMARY

Backend Developer with approximately 2 years of professional experience in designing and developing scalable applications using the Spring ecosystem. Strong problem-solving skills with a top 10% ranking in LeetCode contests. Passionate about building efficient, reliable, and secure backend systems.

EXPERIENCE

Junior Software Engineer
Together Initiatives Ltd

📅 Jan, 2024 – Present   📍 Green Road, Panthapath, Dhaka

- Reduced team workload by 15% through efficient task delegation and process optimization
- Enhanced project performance by 20-30% via code refactoring and algorithm optimization
- Implemented multiple new features, including notification and report generation

PROJECTS

Payment Platform (Acceptance & Virtual Issuance)
Spring Ecosystem, Servlet, Tomcat, PostgreSQL, Liquibase, Azure

📅 January 2024 – Present   📍 Together Initiatives Ltd

- Enhanced the system's functionality by implementing country-based transaction verification, AVS check, CVV check, MCC group check, asynchronous transactions
- Resolved many production level bugs and security vulnerabilities to ensure system stability and compliance

LIC(A Reporting Application of Robi Telecom & National Telecommunication Monitoring Center))
Spring Ecosystem, Oracle SQL, JesperReport, Kafka, JUnit, Mockito

📅 March, 2024 – December, 2024   📍 Together Initiatives Ltd

- Implemented a robust system to process diverse recorded data types
- Implemented some important features and modules on microservice architecture
- Automated the conversion of processed data into multiple formats, including Excel, PDF, and text
- Implemented efficient processing of XML requests
- Delivered high-volume XML data responses with optimized performance

Online Book Store (An E-Commerce System)
Spring Ecosystem, MySQL, BootStrap, JUnit, JavaScript

📅 January,2023 – August, 2023   📍 GSTU

- An e commerce system for a small to large size book store
- Managed the bills, payments, book quantity

EDUCATION

B. Sc. Engineering,
Computer Science and Engineering,
Gopalganj Science and Technology University

📅 Jan, 2019 – Dec, 2022   CGPA : 3.02

SKILLS

Java | Spring Boot | Spring Webflex
Rest API | Microservice
JasperReports | SOAP | JUnit
Mockito
PostgreSQL | OracleSQL
Docker | Azure | Kafka | BashScript
JavaScript | jQuery | CSS | Bootstrap
JMeter | Git | GitHub
C/C++ | Python | TensorFlow | Keras
Jira | Notion

ACHIEVEMENTS

- Among top 10% in **LeetCode** contestant having rating 1700+
- Pupil at **Codeforces**

TRAININGS

- Learning Linux Basics Course & Labs - KodeKloud
- Introduction to Python - Analytics Vidya
- Machine Learning With Python - IBM
- Introduction to Deep Learning with Keras – Simplilearn
- Introduction to Deep Learning & Neural Networks with Keras - IBM
- AI for Everybody - Open AI
